

Type CD/S Plastic

A new plastic body is now available to house our unique Norval Check Valve. This is available in sizes ½" to 2" and can be supplied with screwed BSP end connections or with push fit ends for easy and quick installation.

This is a very lightweight and cost-effective solution to customers' needs and is especially popular in the chemical industries and water authorities. Where stainless steel is not suitable or cannot be used the cone can be manufactured in PTFE.

Product Datasheet Plastic Body CD/S

Tabulation				
Unit Size	(D)	(L)	(T1)	(T2)
½"	Ø50	96	½" BSP	25
1"	Ø50	96	1" BSP	25
1 ¼"	Ø60	100	1 ¼" BSP	25
1 ½"	Ø70	105	1 ½" BSP	25
2"	Ø80	120	2"	25
